ALUMINIUM GATE COLLECTION

“One Gate for Life”

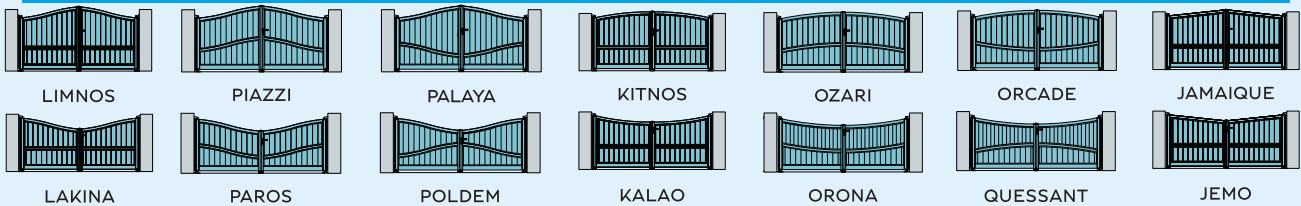

CONTEMPORARY

WOODGRAIN *Collection*

With privacy being an important factor for many of our customers, our close-boarded "Contemporary" collection, available in a range of designs & finishes, is an ideal choice for many, with every gate within this brochure being virtually maintenance-free.

LIMNOS - DIAGONAL BOARDS

JABAL - SLIDING GATE

CONTEMPORARY

WOODGRAIN *Collection*

With a little less privacy in mind, this stylish “part-open” collection is very popular, allowing views into your property as well as out to the road. We offer all of these in the same woodgrain effects & can create matching fences & side gates also.

ANODISED

ANODISED *Collection*

With many models available, this sleek & modern collection allows you to create your own design of gate whilst taking inspiration from the range on offer. All Anodised boards are visible on both sides of the gate with a range of paint finishes available.

TOSKA- SLIDING GATE

MANY MODELS AVAILABLE

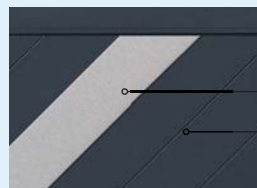

AKADIA - SLIDING GATE

ISKER - SWING GATES

INTERIOR AND EXTERIOR DESIGN

The Anodised finish is on the entire board, front / back.

This way, the integration of the boards in the construction of the gate provides a visible pattern on both sides.

CUSTOMISABLE DESIGN

You can create your own pattern, either by taking inspiration from the models in the range, or by starting from a blank page. Depending on your design the gate and fence can also be adapted. A prior technical validation will be carried out by our design office.

KANTUM - SLIDING GATE

KAZAL - SWING GATES

WHAT IS ANODISATION?

Anodising is a surface treatment that brings an aesthetic benefit by highlighting the metal aspect of aluminium. Our anodising is certified by the quality label QUALANOD which guarantees in particular the density of the anodising layer and the resistance to corrosion. The warranty period is identical to that of our woodgrain finish.

AKORDIA

AKORDIA Collection

This unique & stylish collection is available with standard 125mm boards and optional 250mm boards, a number of models with variation of opaque glass, brushes stainless steel or mirrored stainless steel inserts to give a personalised feel to your gates.

COTIM 11 - Swing gates

The AKORDIA range of gates are available in swing and sliding versions, flat top only.

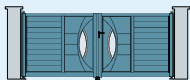

The decorative inserts are double-sided (inside and outside). A simplified version is available with 1 sided decorative inserts (outside only)

STAINLESS

STAINLESS *Collection*

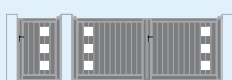

This range of gates with a modern style is characterised by the use of brushed stainless steel inserts, fixed on both sides of the gate (inside and out). The modern, stylish design of these gates are offered in several different variants and a wide range of colours.

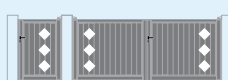

SENSO 4 - SLIDING GATE

SENSO 1

KERO 1

LYSEO 1

ALTO 1

SENSO 2

KERO 2

LYSEO 2

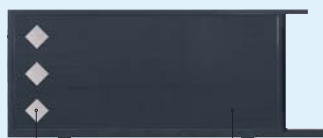

KERO 4 - SLIDING GATE

INTERIOR AND EXTERIOR DESIGN

Stainless steel inserts are fitted to both sides of the gate, symmetrically. For example, for the KERO 1 there are 12 stainless steel inserts in total (6 on the outside and 6 on the inside).

The inserts are fixed on the gate slats and screwed to each other by stainless steel screws.

The screws are visible on the inside (3 or 4 screws per insert depending on the design). Using screws guarantees a permanent fixture of the inserts over the years.

Brushed stainless steel inserts

Gate in the colour of your choice

SENSO 4 - SLIDING GATE

ALTO 1 - SWING GATES

The stainless steel inserts are quality 316 L brushed stainless steel finish, 2 mm thick. Stainless inserts are not guaranteed for installations within 1 km of marine coasts.

Insert dimensions:

- Square inserts KERO model: 20 x 20 cm
- Diamond inserts LYSEO model: 20 x 20 cm (diagonals of 28 cm)
- Inserts ALTO and SENSO models: 7.5 x 50 cm (placed vertically or horizontally)

KERO 1 - SWING GATES

REVELATION

REVELATION *Collection*

This collection offers many different options in order to create your own individual design. With bar, mesh & glass infills in a wide choice of colours, you can “mix & match” so many different components to create your perfect gate.

OPTIONS

"Why HorizAL Aluminium Gates"

Fantastic designs to enhance the look and feel of all traditional and modern builds.
Wide range available with many personalised solutions to meet your requirements.
Fully CE Marked.

Designed with the possibility of dismantling and replacing sections or items in the event of damage.

All products are subject to a rigorous QC system and factory-tested prior to despatch.
Manufactured to the highest possible standard, complete with heavy duty extruded framework, infill panels and reinforcement for automation, fully guaranteed for **5 years**.

Virtually maintenance free, unlike steel and wooden gates which require continuous upkeep, such as rust protection, painting or staining.

All products are finished and protected with an internationally recognised process called "Qualicoat", offering a robust outer coating, guaranteed for **10 years**.

"Quality isn't expensive, it's priceless!"
